

2,4 Ghz 5dBi Magnetic Base Antenna

Product ID: 700-889-ANT01

Edition 2 (22.07.2009)

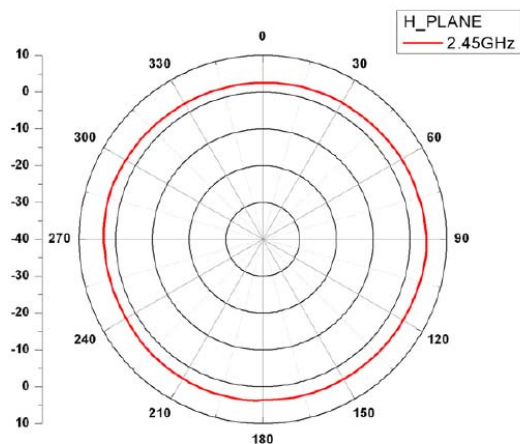

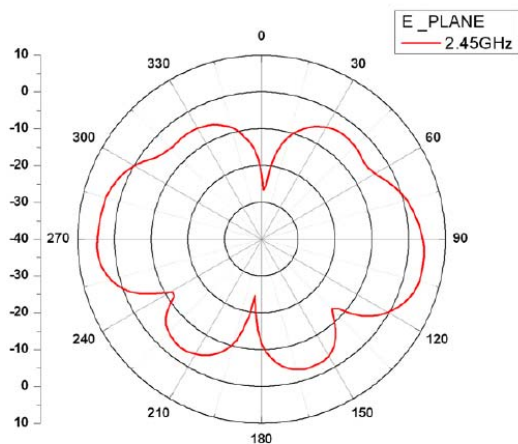

Easy to mount by attaching device to all kinds of smooth magnetic surfaces. Strong magnetic cohesion. The screw-off option of the antenna allows a usage without the base. The antenna is furnished with an articulated joint at the connector to ensure a precise alignment.

Technical Data:

Frequency range	2,4 ~ 2,5 GHz
Gain	5 dBi
Impedance	50 Ohm
Polarization	vertical
Connection type	reverse SMA
Cable length	1500 mm
Length (antenna without Base)	192 mm
Diameter antenna	max. 13 mm
Diameter magnetic base	48,5 mm
Weight	152 g
Protection class	Indoor (no IP value)
Temperature range (operation)	-20° C – + 65° C
Temperature range (storage)	-30° C ~ + 70° C
Color	black
